

Hello,I fully believe Air1 radio serves the community with their style of music and support. Their fully committed staff is very sincere in their operations. I doubt if any other radio station can claim to have prevented as many possible suicides as Air1 has done.

In our ever changing times, we need Air1 more than any other station.

I believe Air1 serves the public interest with their 24 hour committment to the public and all of their support programs. Please leave the Air1 just the way it is, listener supported, commercial free. Thanks for your time, Paul Schiley
